Michal Gordon (She/Her)

I'm a **Nomadic Full Stack Developer** with over **3 years of experience**. My last job was at a successful startup where I worked primarily with **Vue.js**. Since then I have gained experience with **React** and am always excited to learn new things and tackle new challenges!

EXPERIENCE

Paradox Inc, Tel Aviv — Full Stack Developer (FE Emphasis)

MARCH 2020 - OCTOBER 2022

Worked on the development of the Paradox Extension - a **user facing**, **production grade** software in **Vue.js**.

Led a **Vuex** refactoring project maximizing efficiency and reactivity.

Led the development of a successful **Chrome extension** using **Whatsapp's API** that was written about in Geektime magazine.

Created modular, reusable UI components using **HTML**, **CSS** and **JavaScript**.

Implemented and consumed **REST API**s using **NodeJS** and **Python**.

Worked with **AWS** services such as DynamoDB, EC2 and S3.

Participated in **code reviews**, peer programming and peer planning in a highly collaborative environment.

Developed **unit tests** for complex workflows using **Jest** and **Cypress**.

PROJECTS

Botanica — *Responsive Website, React*

First frontend project using **React** and **Tailwind CSS**. Implemented a friend's design for a botany conference. Check it out HERE.

EDUCATION

Hebrew University, Jerusalem — *B.A, Internet and Society*

2017 - 2020

Alumni of the pioneering class of the **honors program**: 'Internet and Society,' which combined **computer science** with **social sciences**.

Relevant courses include: Java, Python, Database Analysis, application development using Android Studio and UX/UI using Figma.
